

*A Message from Gatorade:*

*The health & safety of athletes and event staff is our top priority. With that in mind, we have reviewed CDC recommendations and are taking a number of proactive measures.*

*Effective immediately, in an abundance of caution, we have modified our product experience. We will still have Gatorade available for all athletes, but instead of using coolers:*

- We will have one central hydration station where one dedicated, gloved and masked staffer will place chilled 12oz Gatorade bottles on a table for athletes to take.*
- Hydration areas and equipment will be cleaned and disinfected continuously throughout the day.*
- All Gatorade staff will be required to wear gloves and a mask while working stations.*

*Participants should feel free to bring their own Gatorade or other choice of hydration from home if they would prefer to do so. We ask that you please clearly mark your name on the bottle. Gatorade will not provide bottles of water.*

*Stay Healthy. Stay Safe. Stay Hydrated.*
